Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This manual is the first of its kind to present information that an individual or group can use to determine their preparedness for long-term survival. There are 19 primary and 15 sustainability areas covered in meeting long-term survival challenges. Detailed instructions allow completing each section to rate current performance and to point out possible improvements. Nothing can prepare an individual or group against the unforeseen or rogue actions of an individual or hostile group. Vigilance, attention to detail, and maintaining a low profile reduces risk of exposure and in my opinion is the best form of passive defense. Effective communication monitoring within the local community as well as state, and federal government about events and actions of individuals and groups can aid in preparing for events leading up to a survival situation as well as for contingencies after it happens. It is the hope that this manual will better ready an individual or group for a long-term survival event when it occurs. May the odds be in your favor and Murphy s Law on your side as you prepare for uncertainties waiting in the future.
