Do you love the idea of being creative but find it difficult to get in the creative mood? Do you procrastinate instead of being productive? If so, then this book is for you. It is several things in one: some tips on how to start thinking about writing, some recommendations for apps and programs that will help you on your way, and - hopefully - a kick up the arse that so many writers (including myself) often need. I know how hard it is to start a creative project. I've been there, and I've been there so many times that I've found a whole heap of different ways to get myself into that zone, some of which can be really fun. So what are you waiting for?
